**zeon**®

**Point-to-point pickup & delivery platform**

**Zeon** is the point-to-point currier management application of KLOUD*SKY*. Zeon seamlessly integrates retail orders, businesses, deliveries and payment solutions together in to an operation that can be managed at your finger tips. Solution consists of native iOS/Android mobile apps and responsive web applications for end customers, business owners and drivers.
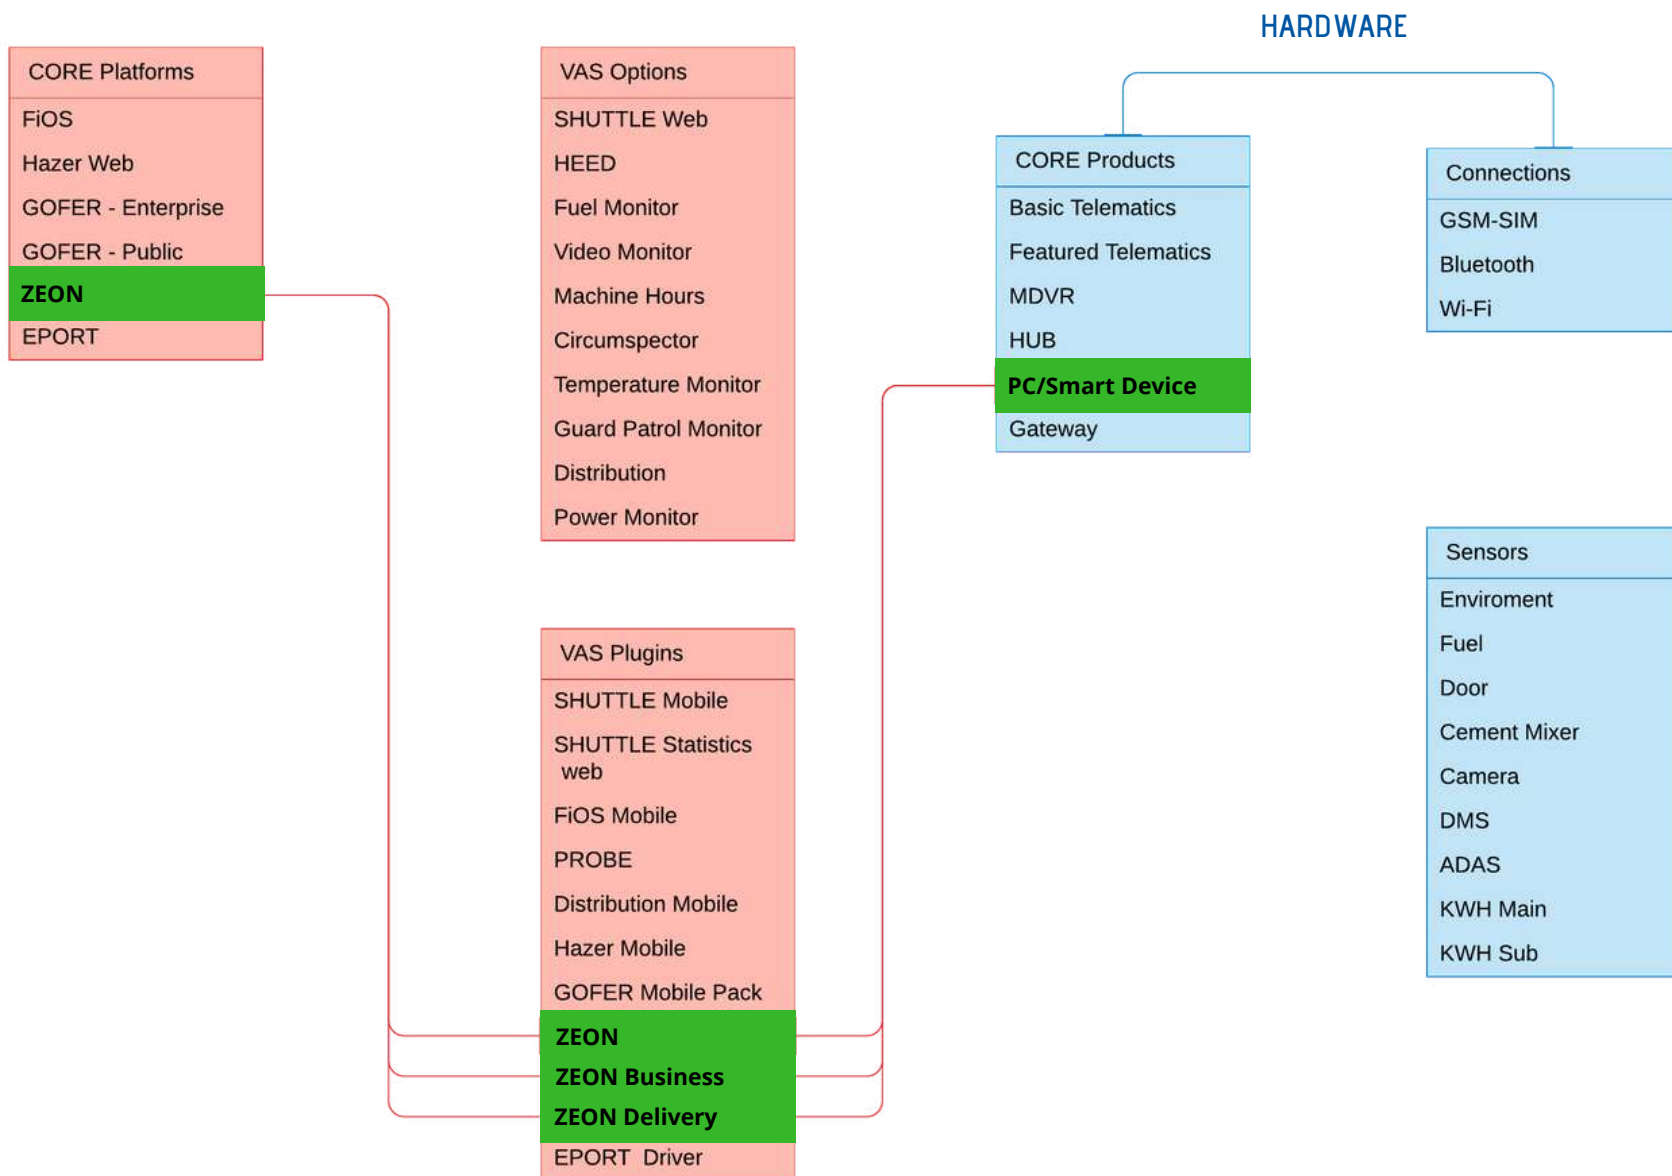

Rich design of Zeon application ensures "ordering online" an extremely friendly experience for the tech savvy and ordinary users. Customers will love to order and soon change their lifestyles to spend time wasted on picking/delivering items in a much more valuable way. Mobile apps available for business owners; customers and delivery available in iOS/Android are meticulously designed to give the user almost same experience if access platform from web interface or mobile.

KLOUDIP's focus is to continuously improve user experience with an aim to change make your end customers realize online ordering is faster, easier, more productive, hassle free and a safer alternative.

Zeon          Zeon Business     Zeon Delivery

**Zeon** Ordering; Control-centre management and Pickup/Delivery mobile Apps are available on iOS/Android platforms for instant download and start your business. If you are interested in our single-store option we will brand all applications under your label as per your requirements. All it takes from talking to us to start your online point-to-point currier business is less than 10 business days.
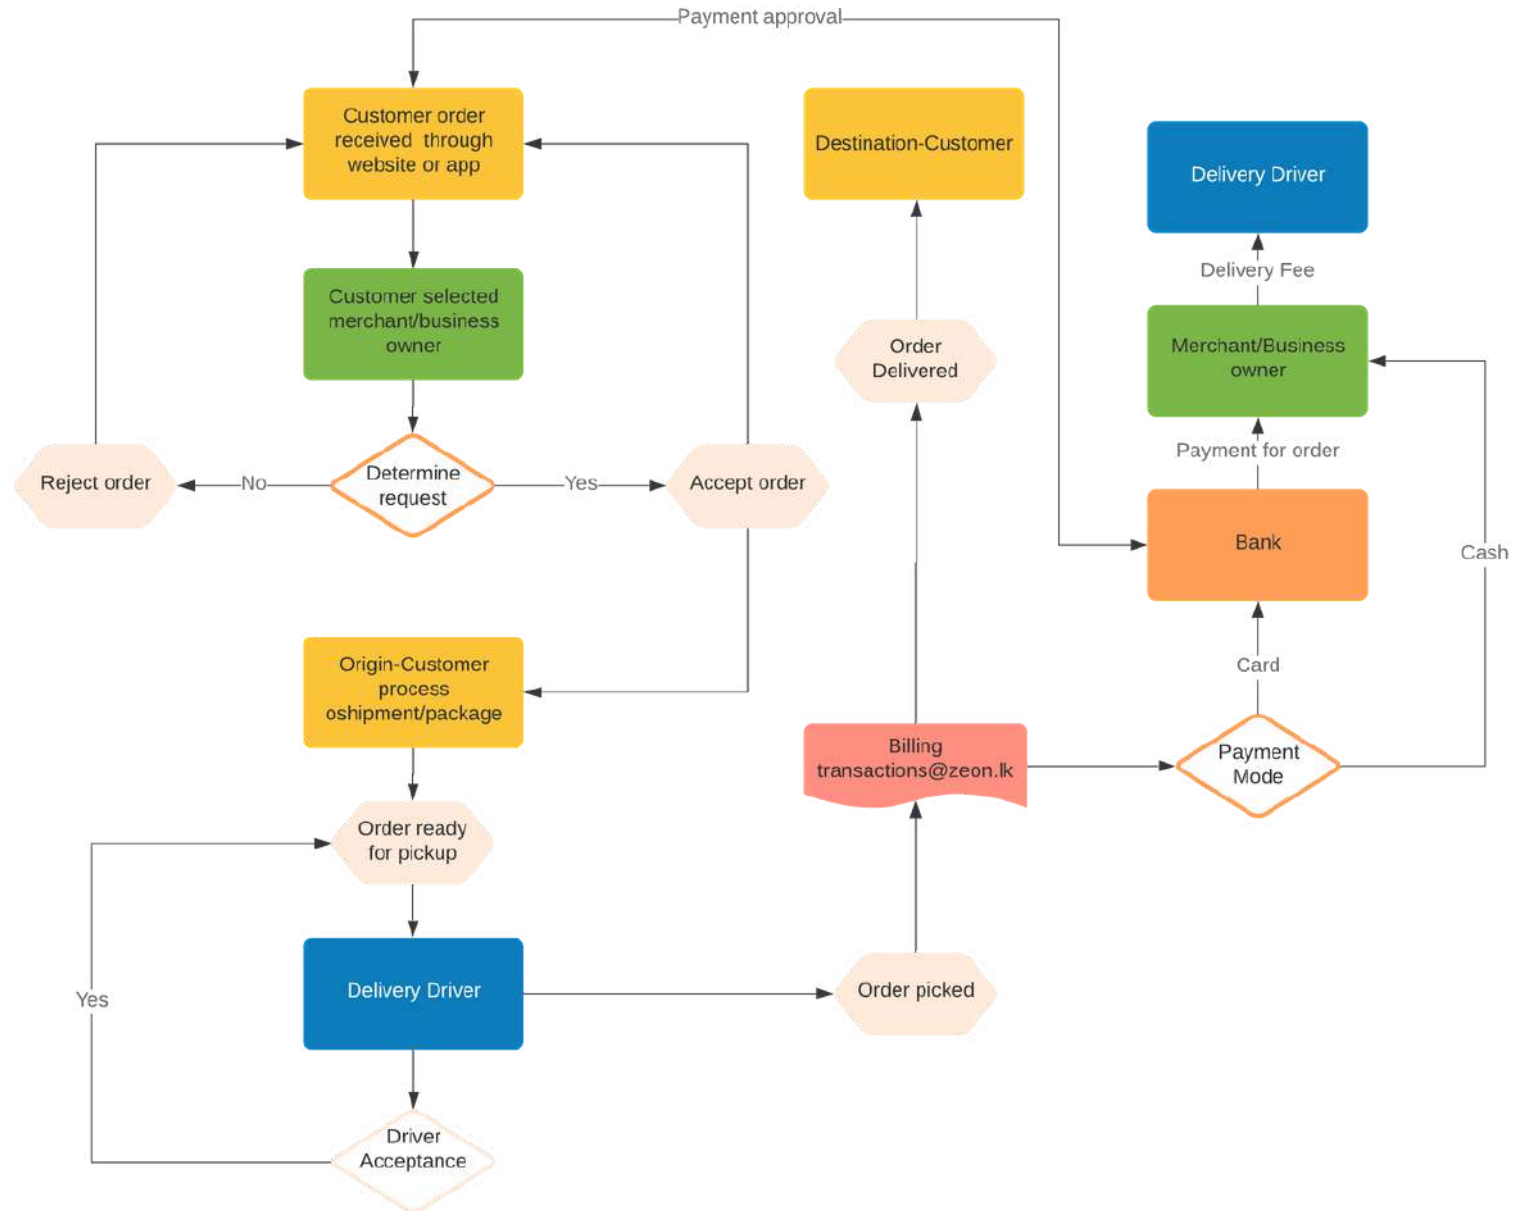

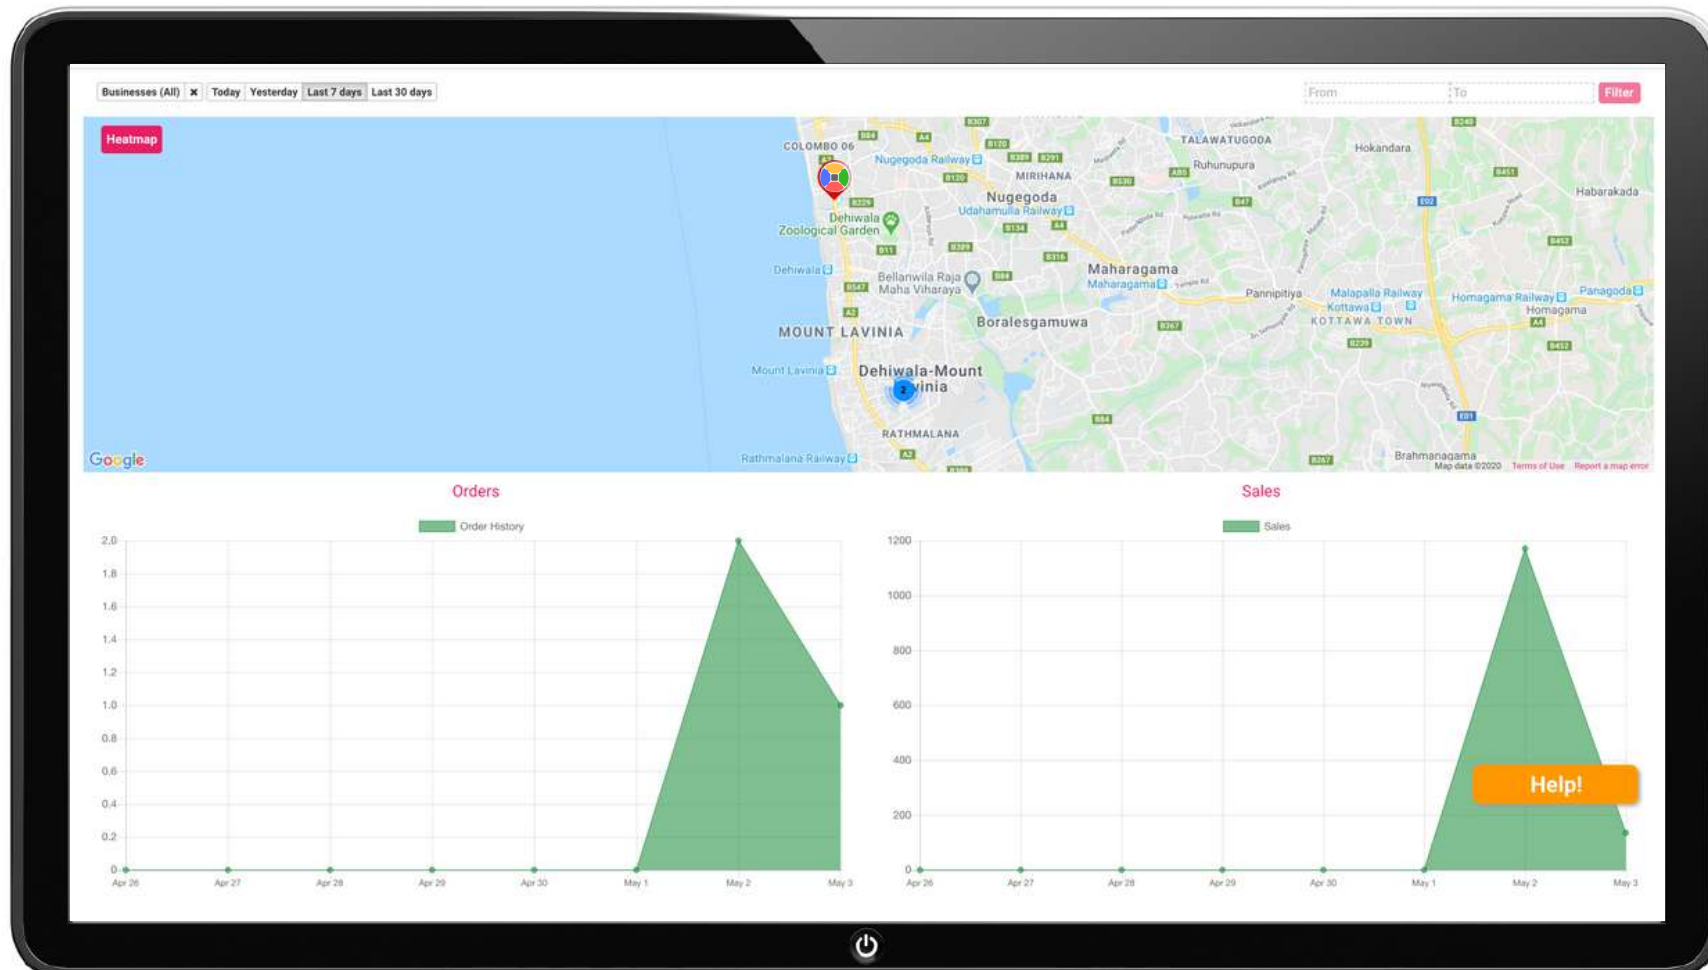

**Zeon** charges no transaction fees from the merchant or the driver. There will be only a monthly fixed platform subscription fee charged to the business owner.

# Real-time reports

**Real-time Reports** - Powerful reports will let you monitor up to the last second. Responsible managers will be alerted repeatedly on their mobiles until action is taken to expedite orders. Monitor order and pickup status pending, picked up on-delivery, delivered, completed or cancelled. View payments received; proof of delivery online and analyze ratings to maintain your services at optimum standards.
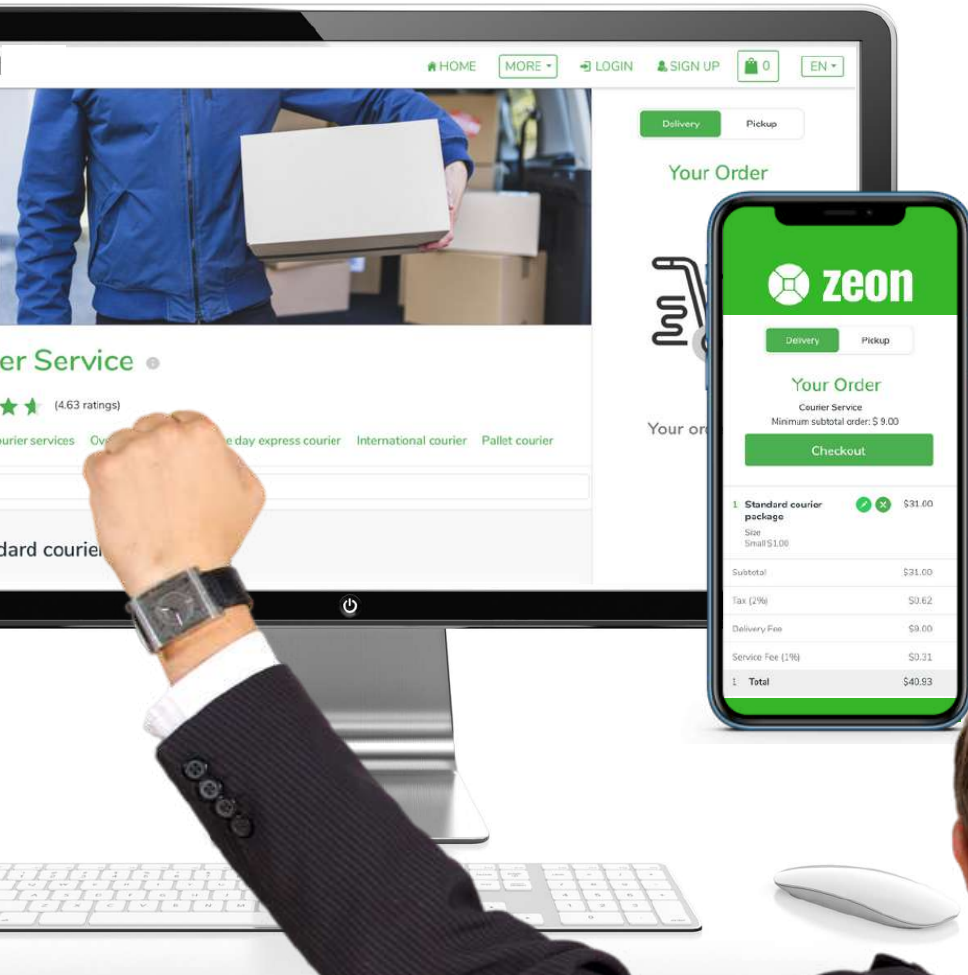

Zeon is meticulously designed to give the customer a life changing experience. We will ensure that both tech-savvy and ordinary-user experience will be equally exciting and would love to order.
