FiOS 8

Taking Fleet Management from Challenge to Success

Manage driver behavior

Reduce fuel costs

Increase fleet productivity

Fleet management

FiOS for fleets is an innovative web-based fleet management platform available in SaaS and server-based delivery modes. The system lets you focus on KPIs of particular importance, thereby maximizing your efficiency.

Reduce labor, fuel and depreciation costs by decreasing idle time, miles driven and managing driver behavior. Plus, get to more jobs faster and get more done.

KLOUDiP

FEATURES

Driving habits
and behavior analysis

Fuel tracking

Fuel is typically one of the largest fleet expenses. Finding ways to minimize fuel spent can substantially improve the bottom line.

FiOS fuel monitoring system provides intelligent tools to keep track of fuel consumption and easily detect fuel thefts. Fuel information can be sourced from CAN bus of a vehicle or after-market fuel sensors. Take charge of your fuel use with FiOS.

KLOUDiP

FEATURES

Intelligent fuel consumption management

Map markers for fuel thefts and fuel fillings

Visibility into fuel level in tanks

All types of sensors: CAN/Fuel level probes, etc.

Powerful report-building tools

Dashboard to track relevant KPIs in real-time mode

Integration with EPR and back office applications
